

# **Siren Warning System RFP**

## **Vendor Questions and Answers**

### **Addendum – January 9, 2018**

#### **Additional Siren Information**

Here is more specific information regarding our current siren setup.

Westcom utilizes Motorola radio infrastructure. Currently, outdoor warning sirens are activated from Motorola MCC 7500 consoles via Motorola MTR 2000 VHF (12.5 kHz) base stations via fast (40ms/20ms) DTMF.

The sirens are Whelen Vortex R4.
